Hello everyone,

As the president of our student council, I am excited to report the results of the survey about our school cafeteria to you all. We asked about 1,000 students, "What new dishes would you like to have in the cafeteria?" Your response is important to us, because we want to increase the number of our favorite dishes. If we do that, we can enjoy our lunch time more and we can make a better school.

The survey results were very interesting!

- The most popular choice was international meals. Many of you said you want to try dishes from different cultures. This shows that our students are very interested in flavors and cultures around the world.
- Coming in second were seafood meals. It seems that a lot of you like seafood such as sushi and grilled fish.
- Next were soups, chosen by 200 students. It's great to see that many of you are interested in having warm and healthy choices available.
- Close behind, were vegetarian meals. We understand the importance of people's different ideas and thoughts.
- Finally, we have desserts. They came in last, but we know everyone, even teachers, loves sweets. Don't worry; we will still make sure there will be more delicious desserts available for sweets lovers.

In conclusion, this survey has shown us that many of us are interested in a wide variety of dishes. If we can make this happen, I believe we can make our school cafeteria a better place for everyone. We will discuss and work together with our teachers and the cafeteria staff. Thank you for answering the survey and sharing your ideas.
